**Frontend:** JavaScript, VueJS, React, HTML5, SCSS, Tailwind CSS

**Backend:** Ruby on Rails, Python, NodeJS, GraphQL, PostgreSQL, Docker, FAE CMS

**Tools:** Git/GitHub, Figma, JIRA, Jenkins, Netlify, CI/CD pipelines, Slack, Co-Pilot, Claude

## **Full Stack Developer** - *FINE Design, Inc (Portland, OR, Remote)*

*July 2021 - Sept 2025*

- Built and shipped new features including custom page templates, modals, and navigation using Vue2/3, TypeScript, Rails, Render, and modern CSS (SCSS & Tailwind CSS).
- Maintained and improved 90+ client sites leveraging FAE CMS and Rails, enhancing performance, accessibility, and UI/UX consistency.
- Collaborated with PMs (Slack, JIRA) and designers (Figma) from prototyping through launch, ensuring accurate implementation and timely delivery.
- Monitored CI/CD pipelines (Jenkins & DataDog), executing hot fixes under tight deadlines.
- Improved code quality via refactoring, modular component patterns, and performance tuning.

## **Freelance Web Developer** - *Remote*

*Apr 2020 - Present*

- Designed, developed, and deployed responsive websites for businesses using JavaScript, Vue3, React, NodeJS, and modern frontend workflows.
- Performed code cleanup, debugging, and code reviews for client and developer projects, resolving issues across both frontend and backend codebases.
- Integrated hosting, deployment, and DNS tools using Cloudflare, Netlify, and GitHub.

## **Web Developer** - *OneBook (Remote)*

*Mar 2021 - Oct 2021*

- Converted wireframes into reusable components, focused on modularity and performance.
- Enhanced mobile responsiveness and UI/UX through collaboration with mobile dev teams.
- Supported improvements to component structure and frontend build processes.

**Earlier Career:** Microbiology & QA roles (2008–2020) - Certified Labs Inc., BISCO Dental, Labriola Baking Co., Aryzta, Merieux NutriSciences, Siliker Food Science Center

- Specialized in data analysis, R&D, QA testing, and process improvement
- Applied strong problem-solving and troubleshooting skills transferable to software development

**Personal Interest:** Aviation, Geography, Astronomy, Automotive, Music, Consumer Tech, Biology, Medicine

**Personal Hobbies:** Guitar/bass, hiking, gaming(PC/consoles), programming, car modding, motorcycle riding, martial arts(TKD/HKD/Tai Chi), bird and sea-life watching, star-gazing, photography, body boarding
